

## **Sequencing and Oligo Synthesis Departments Closed During Christmas Time**

Dear Valued Customer

We would like to inform you well in advance that our Sanger Sequencing (incl. the pick-up service for DNA samples) as well as our DNA/RNA Oligonucleotide Synthesis departments will not operate during Christmas time. Our offices and laboratories will perform business as usual as of January 02, 2020.

When planning your work, please consider the following working hours at our Sequencing and Oligo Synthesis departments.

### **Sequencing Department:**

Our regular sequencing service will take place:

- until Monday December 23, 2019
- from January 02, 2020

Sequencing results will be sent in the morning of December 24, 2019 (for Economy Run in the tube without purification) or from January 02, 2020 onwards.

Please take note that Microsynth's overnight sequencing service (incl. the pick-up service for DNA samples) does not operate during Christmas time – last pick-up in 2019: December 23; first pick-up in 2020: January 02 or 03 (regions where January 02 is a holiday).

### **Oligo Synthesis Department:**

Our regular production will take place:

- until Monday December 23, 2019
- from January 02, 2020

Oligos will be shipped until December 23, 2019 and from January 03, 2020 onwards.

In case of any questions, please give us a call on +41-71-722 83 33 or write an email to [info@microsynth.ch](mailto:info@microsynth.ch).

We wish you a merry and peaceful Christmas.

Your Microsynth Team
