

## **Sequencing and Oligo Synthesis Departments Only Partially Operational During the Christmas Holidays**

Dear Valued Customer

We would like to inform you well in advance that our Sanger Sequencing (incl. the pick-up service for DNA samples) as well as our DNA/RNA Oligonucleotide Synthesis departments will work with a reduced schedule during the Christmas holidays. Our offices and laboratories will operate as usual as of 4 January, 2021.

When planning your work, please consider the following working hours at our Sequencing and Oligo Synthesis departments.

### **Sequencing Department/Pick-up Service:**

- Regular sample pick-up until December 23, 2020 with delivery of results for our Economy Run service in the morning of December 24, 2020 and for Ecoli NightSeq on December 30, 2020.
- Extra sample pick-up on December 29, 2020 with delivery of results for our Economy Run service in the morning of December 30, 2020 (Ecoli NightSeq in the afternoon as usual)
- Regular sample pick-up and sequencing start from 4 January, 2021 onwards

### **Oligo Synthesis Department:**

- Regular production and shipment of oligos until December 23, 2020
- Extra oligo synthesis on December 29, 2020 with shipment on December 30, 2020 (standard desalted primers)
- Regular production and shipment of oligos from 4 January, 2021 onwards

In case of any questions, please give us a call on +41-71-722 83 33 or write an email to [info@microsynth.ch](mailto:info@microsynth.ch).

We wish you a merry and peaceful Christmas and a healthy holiday season.

Your Microsynth Team
